EDUCATION

Dartmouth College, Ph.D. 2009

Thesis: Linking community and ecosystem dynamics in invasion biology: An experimental approach in coastal sage scrub.

Advisors: Douglas T. Bolger & Kathryn L. Cottingham

Committee: Matthew P. Ayres, Ross A. Virginia, John C. Moore (outside member from NREL)

Wellesley College, B. A. 2002

Major in Biological Sciences. Minor in Russian. Study-abroad in Oaxaca, Mexico

APPOINTMENTS

Associate Professor (CRC 2) Forest & Conservation Sciences, University of British Columbia 2018-present

Assistant Professor, Organismic & Evolutionary Biology, Harvard University 2014-2017

Biodiversity Research Centre Fellow, University of British Columbia 2012-2013

NSF Postdoctoral Fellow in Bioinformatics, University of California - San Diego 2010 - 2011

Postdoctoral Associate (6-mo), National Center for Ecological Analysis & Synthesis 2009

Lecturer, Dartmouth College, Environmental Studies Program *winter term - 2009*

GRANTS & FELLOWSHIPS

Canada Research Chair Tier 2 in Temporal Ecology (\$600,000) 2019-2024

Canada Foundation for Innovation (\$720,000) 2019

Warmer winters & future forests: How climate and phenology shape temperate woody species communities in North America and globally (not yet officially announced)

BC Farm Adaptation & Innovation Program (\$216,638) 2019-2023

Modeling winegrape phenology for a warming Okanagan

NSERC Discovery (\$235,000 total over 5 years) 2018-2022

Predicting future forests: Understanding diverse phenological responses in North American temperate forests and globally

Milton Fund (Harvard University, \$39,766) 2015

Phenological responses to climate change: Plasticity, local adaptation and the diversity of species' responses

Radcliffe Institute Exploratory Seminar (\$20,930, Ailene Ettinger co-PI) 2015-2016

Predicting future springs: Reconciling experimental and observational approaches for climate change impacts

Biodiversity Postdoctoral Fellowship (UBC, \$100,000) 2012 - 2013

NCEAS Working Group (co-PI with Benjamin I. Cook, \$70,250 plus extension) 2010 - 2012

Forecasting phenology: Integrating ecology, climatology, and phylogeny to understand plant responses to climate change

NSF Postdoctoral Research Fellowship in Biology (Bioinformatics, \$123,000)	2010 - 2011
Phenology of plant invasions: How changing seasons and temporal niches assemble plant communities	
EPA Science to Achieve Results (STAR) Fellowship (\$111,000)	2006 - 2009
Impact of invasive plants on detrital food webs	
SERDP & Southwest Chapter Travel Awards, ESA	August 2009
ESA Applied Section Student Travel Grant	June 2008
Jenks Prize, Dartmouth College (\$2,000)	June 2008
Funding to attend UC-Davis Advanced Entomology (Taxonomy & Field Ecology) course	
Gilman Fellowship, Dartmouth College (\$1,500)	July 2007
Funding to participate in global collaborative fertilization/exclosure study (Nutrient Network)	
Exotic/Invasive Pests and Diseases Research (UC-IPM, \$23,990)	September 2006 - August 2008
Title: Impact of exotic Mediterranean annual grasses on detrital food webs	
Parkinson Travel Award, Soil Ecology Society	April 2007
GAANN Fellowship, Dartmouth College (\$30,000)	September 2005 - August 2006
Center for Invasive Plant Management Seed Money Grant (\$4,939)	April 2005 - May 2006

AWARDS & HONORS

Early Career Fellow , Ecological Society of America (ESA)	2016-2020
Tansley Medal Runner-up , <i>New Phytologist</i>	2013
Murray F. Buell Award for best student oral presentation (ESA)	August 2009
Graduate Student Filene Teaching Award , Dartmouth College	May 2009

46. Buonaiuto*, D. M., Morales-Castilla*, I. & **E. M. Wolkovich** (*Requested revision by New Phytologist*) Reconciling historic hypotheses regarding flower-leaf sequences in temperate forests for fundamental and global change biology.

47. Chamberlain*, C.J., García de Cortazar-Atuari, I., Morales-Castilla*, I. & **E. M. Wolkovich**. (*Requested revision by New Phytologist*) Climate change reshapes the drivers of false spring risk across European trees.

TEACHING

Associate Professor, University of British Columbia *2019-onward*
 Ecology in a changing climate (CONS 310)

Experimental design and hierarchical model building with Bayesian inference (FRST 507C-202)

Assistant Professor, Harvard University *Fall 2014-2017*

Modern Conservation Biology (OEB 216; seminar course)

Introduction to Biological Statistics (OEB 153; co-taught with John Wakeley)

Introduction to Experimental Design and Model Building (OEB 201)

Lecturer, with full course responsibilities, Dartmouth College *Winter 2009*

Wilderness & Society, Environmental Studies 7

Teaching Assistant, Dartmouth College *Fall 2003-2007*

Ecological Research in the Tropics I & II (study abroad in Costa Rica)

Ecological Research on Coral Reefs (study abroad, two years: Jamaica and Little Cayman)

Methods in Ecology (2006, Guest-taught Nutrient Network section in 2007-2009)

Introduction to Ecology & Evolution

Vertebrate Biology

Conservation Biology (Environmental Studies Program)

Introduction to Environmental Studies (Environmental Studies Program)

Mentoring, University of British Columbia *2018-onward*

Mira Garner (2019-onward), Graduate student (PhD), phenology of winegrapes in Okanagan region

Darwin Sodhi (2019-onward), Graduate student (PhD), studies how disease and light quality shape British Columbian forest communities

Deirdre Loughnan (2018-onward), Graduate student (PhD), studies how climate and traits shape forest tree phenology

Faith Jones (2019-onward), Postdoctoral Fellow

Geoff Legault (2019-onward), Postdoctoral Fellow

Undergraduate NSERC Students: Mika Yasutake (Summer 2019), Adam Fong (Summer 2020); Un-

dergraduate Work-Learn International: Kelley Slimon (Summer 2019), Phoebe Autio (Summer 2020);

Undergraduate Research Assistants (2019-onward): Sadie Larter

Mentoring, Harvard University *2014-onward*

Daniel Buonaiuto (2016-onward), Graduate student, studies how shifting plant communities affect the composition and function of North American ecosystems.

Catherine Chamberlain (2016-onward), Graduate student, studies how anthropogenic climate change impacts plant communities, especially North American forest regeneration.

Ailene K. Ettinger (2014-onward), Putnam & NSF Postdoctoral Fellow. Future predictions from current plant collections: Exploiting the novel climates of arboreta to understand tree responses to climate change.

Dan Flynn (2014-2016), Research Associate. Trait-based approaches to understanding adaptation with global change.

Ignacio Morales-Castilla (2016-2017), Research Associate. Predicting the world's future winegrowing regions and varieties.

Undergraduate Honors Thesis Students: Harold Eyster (2016), Sally Gee (2016), Alice Linder (2017)

Undergraduate Research Assistants (2014-2017): Ryan Antolick, Johan-Arango, Terilyn Chen, Nakoa Farrant, Magaly Gutierrez, Robert Hogg, Ari Korotkin (HUCE), Zhi Li (2017-2018), Alice Linder (Harvard Forest REU), Nicole Merrill, Cara O'Connor (HUCE), Asa Peters (DaRin Butz Intern), Christine Parkent (2017), Cat Principe, Liz Stebbins, Harry Stone, (Harvard Forest REU), Emma Borjigin Wang.

Mentoring, University of California - San Diego 2010-2011

Worked with one student on phenology bioinformatics and field bird exclosure project.

Mentoring, Dartmouth College 2006-2008

Worked with 10 undergraduate students in the lab and field, especially with two women for two years: both are now in graduate school for ecology.

SELECTED PRESENTATIONS

Wolkovich, E. M., Ettinger, A. K., Chamberlain, C.J., Morales-Castilla, I., Buonaiuto. Chilling dominates forcing and photoperiod cues to determine tree budburst in experiments, complicating forecasts for natural systems. 2020. American Geophysical Union's annual meeting.

Wolkovich, E. M. & D. F. B. Flynn. Phenological assembly in plant communities. Ecological Society of America Annual Meeting. 2017. (Invited)

Wolkovich, E. M. & D. F. B. Flynn. The role of phenological assembly in plant communities. Canadian Society for Ecology & Evolution Meeting. 2017. (Invited)

Wolkovich, E. M. The race for spring: How climate change alters plant communities. University of Toronto Atwood Colloquium. 2017. (Invited)

Wolkovich, E. M. From Pinot to Xinomavro: The world's future winegrowing regions. Harvard University FOOD+ Symposium. 2017. (Invited)

Wolkovich, E. M. Consumer communities in green, brown and non-stationary systems. 15 Years of the Jena Experiment (Jena, Germany). 2017. (Invited)

Wolkovich, E. M. The race for spring: How climate change alters forest plant communities. Montreal Botanical Garden. 2016. (Invited)

Wolkovich, E. M. From Pinot to Cabernet: The future of good wine with climate change. Harvard University FOOD+ Symposium. 2015. (Invited)

Wolkovich, E. M. World Wildlife Fund's Kathryn Fuller Science for Nature Seminar Series. Speaker and panelist for: A Blooming Problem: The Disruptive Impacts of Climate Change on Nature's Calendar. 2015. (Invited)

Wolkovich, E. M. & B. I. Cook. Historical phenological records & applications to global change ecology. European Geophysical Meeting 2014. (Invited)

Wolkovich, E. M., & M. D. Donahue. Climate change & coexistence: The role of temporal variability in structuring communities. American Society of Naturalists 2014 meeting.

Wolkovich, E. M., Cook, B. I. & T. J. Davies. The race for spring: Understanding the diversity of phenological responses. ClimTree 2013. (Invited)

Wolkovich, E. M., Cleland, E. E., Davies, T. J., Schaefer, H., Cook, B. I., Travers, S., Willis, C. & C. Da-

vis. Phenology & plant invasions: Do invaders occupy novel temporal niches? Ecological Society of America (ESA) annual meeting 2012.

Wolkovich, E. M. & Forecasting Phenology working group. 2011-2012. Warming experiments underpredict plant phenological responses to climate change. Talks at American & European Geophysical Union's annual meetings.

Wolkovich, E. M., Cleland, E. E. 2010. Future questions in citizen science: Including phenology in community ecology theory. Invited talk at symposium at ESA annual meeting.

Wolkovich, E. M., Cleland, E. E. 2009. The phenology of plant invasions: How temporal niches assemble plant communities. Phenology 2010 (Dublin).

Wolkovich, E. M. 2008. Invasive annual grasses enhance native shrubs and their arthropod communities through abiotic soil effects. ESA annual meeting. *Won Buell award for best student talk.

INVITED TALKS & PANELS

2020: Invasives 2020 Forum (Invasive Species Council of BC)

2019: Simon Fraser University, Wine Business IQ (Napa), Wine Island Growers Association Annual Meeting (Vancouver Island), Invasive Species Council of Metro Vancouver, ACARN Provincial Workshop 2019, (Kelowna, BC)

2018: Swiss Federal Research Institute WSL (Birmensdorf), Napa Vintage Report (California), University of North Carolina (Chapel Hill), Dartmouth Cramer Series, San Diego State University

2017: Jena Experiment (Germany), University of Toronto (Atwood Colloquium, Rising Star in Ecology)

2016: Columbia University (E3B), Montreal Botanical Garden, Wellesley College, Arnold Arboretum Botany Blast (public).

2015: Rice University, Weatherhead Center for International Affairs, Arnold Arboretum Tree Mob (public).

2014: Brown University Open Science (panelist); Woods Hole Marine Biological Lab, University of Massachusetts, Boston; Acadia Science Symposium (public); California Academy of Sciences; Dartmouth; Arnold Arboretum Adult Education Series (public)

2012-2013: Simon Fraser University; University of Victoria

UNIVERSITY & OTHER PROFESSIONAL SERVICE

Canadian Institute for Ecology & Evolution management board member	2019 - onward
Stan (probabilistic programming language) non-profit board member	2016 - 2019
Graduate Committee member, Harvard University	2014-2017
Editorial Advisory Board member for <i>Global Change Biology</i>	2014 - 2017
Ecological Systems in the Anthropocene seminar series (HUCE) leader	2015 - 2018
Founder and organizer of Boston Stan (probabilistic programming language) meetup group	2015 - 2017
Linda Loring Nature Foundation Research Advisory Board member	2015 - 2019
Biodiversity Discussion Group organizer, University of British Columbia	2012 - 2013
Tri-University Ecology & Evolution Retreat organizer, University of British Columbia	2012 - 2013
Graduate student Journal Club organizer (and started club), Dartmouth	January 2004 - 2008

Reviewer for: *Agricultural & Forest Entomology*, *Agricultural & Forest Meteorology*, *American Naturalist*, *Annals of Botany*, *Applied Vegetation Science*, *Biogeochemistry*, *Biological Invasions*, *Bioscience*, *Climate Research*, *Diversity & Distributions*, *Ecological Applications*, *Ecology*, *Ecology Letters*, *Environmental Research*, *Functional Ecology*, *Global Change Biology*, *Intergovernmental Panel on Climate Change (IPCC): WG IV*, *International Journal*

Wolkovich-CV

of Biometeorology, International Journal of Climatology, Journal of Animal Ecology, Journal of Applied Ecology, Journal of Ecology, Journal of Vegetation Science, Marine Ecology Progress Series, National Science Foundation, Nature, Nature Climate Change, Nature Ecology & Evolution, New Phytologist, Oecologia, Oikos, Philosophical Transactions of the Royal Society, Proceedings of the National Academy, Proceedings of the Royal Society B-Biological Sciences, Science, Soil Biology & Biogeochemistry, Strategic Environmental Research and Development Program, Tree Physiology, Trends in Ecology & Evolution

PROFESSIONAL ACTIVITIES & AFFILIATIONS

StanCon 2018 - conference organizer	2018
StanCon 2017 - conference organizer	2017
15 Years of the Jena Experiment: The Past, Present and Future Invited speaker for symposium and working group participant	2017
National Center for Ecological Analysis & Synthesis working group participant Working group title: ABI Development: A toolbox for analysis of long-term ecological dynamics	2013
USA National Phenology Network RCN participant	2009 - 2013
Nutrient Network RCN participant (global collaborative experiment) Site Organizer for Etna, New Hampshire site, with K. L. Cottingham	2007 - 2011
American Geophysical Union 2011 fall meeting session: Beyond Earlier Spring: Diverse Phenological Responses to Climate Across Species and Ecosystems, co-organizer with B. I. Cook	December 2011
Cyberinfrastructure for Collaborative Science, workshop participant	May 2011
National Center for Ecological Analysis & Synthesis working group participant Working group title: Detritus and dynamics of populations, food webs and communities	Fall 2008
NCEAS 'Trophic structure across ecosystems' working group participant Working group title: Trophic structure across ecosystems	Fall 2005 - Fall 2008
Society Memberships: American Geophysical Union, American Society of Naturalists, Ecological Society of America.
